

SAICON 2017 Delhi
(7-9 December 2017)
International Conference on Sports Medicine & Sports Sciences
Organized by Sports Authority of India, New Delhi

FIRST ANNOUNCEMENT

In modern sports, the secret behind performance enhancement lies in the application of science & technology in the training of sports persons. In the race towards the medals podium, the gap between the victor and the vanquished lies in millimeters, milligrams and microseconds. Sports Medicine & Sports Sciences can narrow this gap and help sports persons to reach the podium “Swifter, Higher & Stronger” .

Creating awareness as well as knowledge sharing on SM & SS are of paramount importance while planning scientific support to sports. To make this possible , the scientists especially those of the younger generation are to be given ample opportunities to come together on a common platform to share their knowledge , expertise and experience. Organizing seminars, workshops and conferences is a means to achieve this objective. Being the nodal agency for sports development in the country, the Sports Authority of India has now come forward to organize an international conference on sports medicine & sports sciences in order to provide a platform for sports scientists from various parts of the country and from abroad to present their research work and field work on sports medicine & sports sciences. The doctors and scientists will get the opportunity to present their work before a large audience, interact with their Peers in the field of sports sciences and also exchange information with their colleagues working in the same field. The conference will also foster the spirit of friendship and collaboration in the field of sports medicine and sport sciences amongst all those who aspire to contribute their mite for ushering in a refreshing scientific temperament in Indian sports, a far cry from the still prevalent medieval training methods.
